

EAA Compliance Action Pack 2025

- for developers teams

Step-by-step coding tasks to hit the June 28 deadline
—check them off and ship with confidence.

- ☐ Run an automated scan (**Lighthouse/Axe**) on your staging site
- ☐ Tab through every key screen and record keyboard traps
- ☐ Test with a screen reader (**NVDA** or **Chrome Vox**)
- ☐ Fix navigation, product and checkout templates first
- ☐ Replace non-semantic **<div>** elements with proper **HTML tags**
- ☐ Add accurate **ARIA** roles and labels where needed
- ☐ Verify **colour contrast** meets WCAG 2.1 AA (ratio $\geq 4.5:1$)
- ☐ Provide **alt-text** for all important images and icons
- ☐ Caption videos / provide transcripts for audio
- ☐ Add skip-to-content link and visible focus styles
